DETAILED ACTION

Allowable Subject Matter

1. Claims 6-11 are allowed.

The following is an examiner's statement of reasons for allowance:

- The primary reason for the allowance of claims 6-8 is the inclusion of the limitation of an ink jet print apparatus comprising a cam which disposed at the guide shaft, the cam rotating together with the guide shaft and a restriction portion which is disposed at the cam, the restriction portion abutting against the carriage when the carriage is at the second position, thereby changing a movement range of the carriage so as to differ from a movement range when the carriage is at the first position. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.
- The primary reason for the allowance of claims 9-11 is the inclusion of the limitation a method for moving a carriage having an ink jet head mounted thereon comprising the steps of rotating a cam disposed at the guide shaft, together with the guide shaft and changing a movement range of the carriage when the carriage is at the second position so as to differ from a movement range when the carriage is at the first position, by abutting a restriction portion which is disposed at the cam against the carriage. It is

limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
